40311: Flame-retardant weighted duvet cover Anne-Lore® (granulate)

Weighted articles are used as a soothing aid for people who are subject to stress and anxiety related factors or for people with sleeping problems.

A weighted blanket soothes in the same way as a hug would do. Studies of the use of weighted articles have shown that for some patients they reduce the need for restraints and medication.

A weighted article, filled with granulate, which follows the contours of the body perfectly. It also has the advantage that you need little filling volume to exert enough pressure, so the article itself does not need to be very thick. This is more practical in a warm environment and easy to maintain.

Md 40311/5^{TS}: Weighted duvet cover in qual. 1010, with tuck-in strip, dim. 140/200 cm, during the winter months a standard duvet can be inserted, 5 kg.

Md 40311/6^{TS}: Weighted duvet cover in qual. 1010, with tuck-in strip dim. 140/200 cm, 6 kg.

Md 40311 K/3,1^{TS}: Weighted duvet cover for children in qual. 1010, with tuck-in strip, dim. 120/150 cm, during the winter months a standard duvet can be inserted, 3,10 kg.

Md 40311 K/4,1^{TS}: Weighted duvet cover for children in qual. 1010, with tuck-in strip, dim. 120/150 cm, 4,10 kg

Purpose:

- Reduce anxiety and stress
- Relieve restlessness and irritability
- Improve concentration

Attention:

- The combination of a weighted blanket and a reduced lung capacity or a weak musculature may involve a risk. In this case, follow the use of the blankets closely, or consult a doctor if in doubt.
- Consider the risk of tripping if a weighted blanket has fallen to the floor.

Guidelines for use:

The weighted duvet cover can be used as an ordinary standard duvet cover. Put the tuck in strip at the back under the mattress. When there is sufficient warmth in the room it can be used without extra filling. At colder temperatures you can put in a standard duvet.

Quality: 1010, flame-retardant, breathable material, high tear resistance
Stuffing: flame-retardant plastic granulate

The weighted articles are made of a flame-retardant fabric.

Washing instructions for weighted blankets in 1010 with granulate:

1. *Washing* Separate washing at 60°C gentle programme with a little detergent in a washing bag. Duvets weighing more than 6 kg are divisible so that each part can be washed separately.
2. *Rinse* DON'T ADD FABRIC CONDITIONER.
3. *Dry* Dry very briefly at a low temperature in a laundry bag in the dryer or hang to dry. Do not dry together with moisture-retaining textiles (like cotton,...).
